

BED SIDE RAILS

Overview

Explore our bed rail range with clear features and practical applications to help you choose the right support for safer movement, easier transfers, and greater peace of mind at home.

Bed Stick

Features

- Safety return handle
- Mount anywhere on the bed sides

Applications

- Users can use it to pull up, reposition, or sit up.
- Helps users transfer in and out of bed safely

U-Assist

Features

- Slim universal design
- Multiple grab points
- Mount anywhere on the bed sides

Applications

- Multiple handholds for transfers, repositioning, or sitting up.
- Lets users choose the most comfortable or reachable rail for easier movement.

Full Length

Features

- Four rail design
- Caregiver operated
- Left and right mounting options

Applications

- Prevents accidental roll-out, helping users feel secure during sleep or rest.
- Easily folded by caregivers for access or transfers.

Extendable

Features

- Two position extendable
- User operated

Applications

- User can easily retract to allow safe bed entry and exit.
- Provides a secure barrier to reduce the risk of accidental roll-out when extended.

Low

Features

- Hybrid grab / safety rail
- Mount anywhere on bed sides

Applications

- Multiple horizontal rails support transfers and sitting up safely.
- Provides a secure barrier to reduce the risk of roll-out when extended.

High

Features

- Four rail hybrid design
- Mount anywhere along bed sides

Applications

- Ideal for getting in and out of bed.
- Small enough to use as a grab rail, yet large enough to aid positioning and prevent roll-out.

* All rails are designed to IEC60601-2-52 standards.
