

MEDICAL CUSHION COVER

NEW!

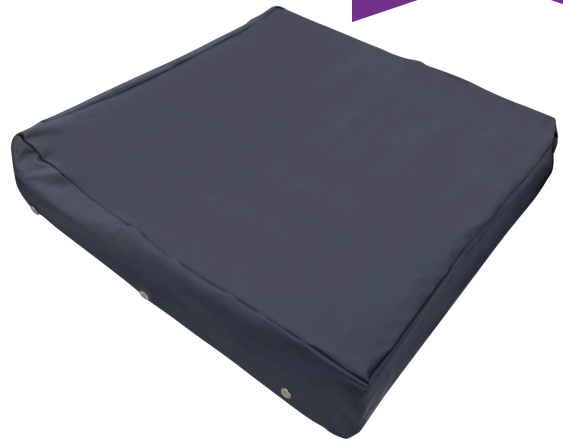

The medical grade cushion cover is made from Zerotec fabric which is a medical barrier fabric that has high elasticity in every direction which reduces shear on pressure redistribution surfaces. It is waterproof and wipeable but has microporous breathable properties. This cover has air release vents, welded seams, and waterfall flaps for fluid control.

One size: 45x45 x 7cm

AIR RELEASE VENT

Incorporating air vent grommets into the cushion design, allows air to escape freely, preventing the accumulation of trapped air and improving overall comfort when sitting down.

Compatible with:

- Reform Seat Cushion
- SupportA Seat Cushions
- Coccyx Cushion
- Posture Wedge

CARE & CLEANING

To launder the cover in a washing machine, set the main wash to a minimum of 65°C for no less than 10 minutes. The cover can be tumble dried on low heat and the temperature must not exceed 60°C.
